Minarcho-Nationalism

By Aidan Hall

For most of human existence, communities functioned under a natural tribal structure. The tribal structure worked well for us for millions of years, and it was only decided to be an inadequate lifestyle when we invented concepts like currency, welfare, and modern comforts.
The welfare that has kept modern men fed for free has also kept them weak, unable to independently survive and doomed to be inevitably crushed by natural selection in one form or another. The welfare eater does not need to put in any effort to survive because he is guaranteed that everyone else in the community will pay for his meals and his free cell phone issued by the big government. The big government intentionally keeps the welfare eaters dependent, so that the dependent people will continue to need and advocate for the big government. The big government only exists if weak men need it and allow it to exist, and the desire of politicians to cling on to their big government power is simply for that reason, for power itself.
The big governments function as direct enemies of the people they govern. They enforce globalist neoliberalism and act as a corporate entity, using wage systems to keep the manufacturing men impoverished while the rulers of the government tax their earnings for profit while contributing nothing.
Federal tyranny is not manageable when the people they are trying to control have a strong shared identity, so the globalist neoliberal governments enforce diversity to ensure there is no possibility of a common sense of morality and brotherhood that would lead to revolutionary reform. Cultural nationalism is poisonous to globalism because our ethno-cultural differences keep us independent from the globalist elite that seeks to indoctrinate the entire world under their agenda.
Because the goal of globalists is to blend all cultures and ethnicities into a monolith, the best way a Minarcho-Nationalist can fight globalism is by protecting and embracing their people and their culture.
The reality of Social Darwinism causes diverse societies to collapse, because equality is an idea used by globalists to suppress men's natural instincts for competition. Racial discrimination only exists in a racially diverse society, and in monoethnic societies there is no racial hatred because the people are able to protect their own people and culture within their borders whilst not interfering in the affairs of other monoethnic nations.
To destroy the globalist zombification and degeneration of men, every race must peacefully exist separately in their own nations and every race must have self determination within their homeland. The land that a group of people has inherited must not be invaded by foreigners.

<u>Zionism Partners With Globalism</u>

While Europeans are disappearing from the Earth due to floods of immigration, Israel maintains strong borders and only allows Jews to enter their ethnostate. While open borders have fueled the death of Europe, closed borders have allowed Israel to be a thriving racial paradise for Jews.

0.2% of humans are Jewish. 19% of billionaires are Jewish. 18.4% of millionaires are Jewish. 18% of national leaders are Jewish.

It is clearly shown in statistics that Jews have disproportionate wealth and power, this is not a stereotype but rather it is a consistent pattern throughout history. Zionism does not only establish a Jew-only racial state, it is also designed to hoard wealth and media control in foreign nations just as Jews have been notorious for since 2,000 BC. Zionism is a friendly word to describe Jewish Supremacy.
The reason that your “News providers” all spit the same narrative is because they are feeding you an inherently Zionist doctrine. Jews own the majority of News companies and they shape your mind however they deem necessary for their supremacy.
When Israel terrorizes the Palestinians, the News tells you that the Palestinians are terrorists. When you give your taxes to the American government, $16 of your payment is given to the Israeli Defence Force, and the Jewish media convinces you to support giving them money with which they bomb Palestinian schools and hospitals.
So you must be wondering, why do the Jews hate us? Why do they want to achieve Jewish Supremacy? Here are some excerpts from the Jewish Talmud to make it clear:

"...the punishment of a gentile who studies Torah is like that of one who engages in intercourse with a betrothed young woman, which is execution by stoning." (Sanhedrin 59a)

"...it is forbidden to heal a gentile." (Avodah Zarah 26b)

"...it is permitted to deceive a gentile" and "it is permitted to rob a gentile." (Bava Kamma 113a)

"...the Jewish people, are called “man,” but gentiles are not called “man.” (Bava Metzia 114b)

"...If there is a majority of gentiles he is not obligated to proclaim his find." (RE: finding a lost item of someone's property, Bava Metzia 24a)

"...If a Jew murders a gentile, he is exempt." (Sanhedrin 57a)

"A girl who is three years and one day old whose father arranged her betrothal is betrothed with intercourse, as the legal status of intercourse with her is that of full-fledged intercourse. And in a case where the childless husband of a girl who is three years and one day old dies, if his brother, the yavam, engages in intercourse with her, he acquires her as his wife; and if she is married, a man other than her husband is liable for engaging in intercourse with her due to the prohibition of intercourse with a married woman." (Sanhedrin 55b)

So the reason Jews hate us is because their religious texts literally state that they must kill us. It states that the Jewish God allows Jews to kill non-Jews, to steal from non-Jews, to lie to non-Jews, and the Talmud literally states that non-Jews are not even human beings. The Jewish Talmud is the most racially hateful book you can find, so why are we letting Jews run our countries and systematically genocide our people?
The Talmud even permits Jews to commit child rape, which they engage in and they sell their 3 year old daughters for cash. European cultures do not allow child rape, which is one good example of why Jewish media aggressively promotes degeneracy, to promote their belief that it is good to rape children so that when they do it we will say nothing to condemn them, and we do in fact say nothing.
Jews are on a mission to rob you and kill you. The Jews are racial supremacists at home and globalist neo-liberals on the world stage.
Non-Jews will not survive unless Judaism is exterminated.

The Necessary Political Structure

Minarchy is the concept of having minimal federal government. The government must only exist to protect our borders, kill killers, and run hospitals.
The government can no longer be permitted to constantly add laws and restrict freedom just to protect itself, as they have done over the centuries, but rather they must only establish laws based on actual moral order. Illegalizing murder, rape, and theft are foundational laws, the only other laws that should exist are those that the people themselves deem necessary for peace and order.
The people of an ethnostate must maintain their communities in villages within the national borders. Their economic activity and production must be used only for their own nation, as the problems of other nations are not their responsibility. A nation must be self-sufficient, and all resources produced by the nation must be used to benefit the people within.
Moral laws historically have been enforced by the people themselves, and when someone commits rape they are executed by the villagers. The concept of a police force is new to human society, societies throughout history have successfully enforced their laws without police, and instead enforced their laws with a common moral code in which the people must act against those that harm others. The people themselves will defend their values as a community, as this is the natural human method of lawful order.
Production can not be in the hands of a company, this is exploitation of the producer. The producer himself must barter his goods to other villagers, so that he can reap all the benefits of his own labor. Supply and demand within a village is simple, if someone needs something that someone else specializes in producing, they can arrange a mutual benefit. This is the natural order of human community, if a human needs something he makes it, and if he does not have expertise in producing what he desires then he can acquire it from one of his fellow countrymen. If none of his countrymen can produce this demanded product, it is likely that the product itself is not necessary for the society's survival.

We can not achieve Minarcho-Nationalism by working towards it within the globalist system, it is not possible. The only way of salvation is a violent revolution against the elite and deportation of all foreign invaders.
